### Farmers Warned that Hopper Pest is Grave Menace

**Unless Campaign is Waged  
Crops Will Be Ruined, says  
Expert—Assess Situation is  
Now Serious**

"Unless farmers between here and the International Boundary adopt an Active Campaign against grasshoppers, there will not be any crops this year in that part of the province."

This was the startling announcement made by E.H. Strickland, professor of Entomology at the University of Alberta, but who is again in charge of Combating the Menace, working under the Department of Agriculture.

"The whole thing is entirely in the hands of Farmers," said Mr. Strickland "and it is solely up to them to see that all Grasshopper breeding grounds are effectively Poisoned. The department is doing all it possibly can and elaborate arrangements have been made, not only so far as an adequate quantity of Bait is concerned, but competent officials are visiting this themselves. The whole of the Infested Areas have been blanketed and no less than 22 Agents have been appointed to attend to the extermination of the 'Hoppers'."

Mr. Strickland stated that the late season this year had been unfortunate from their point of view. There was not much chance of the young insects being killed by frost after hatching out. On account of the late season it was not probable that the Hoppers would hatch out until the being of June. He mentioned this owing to the fact that as few farmers had so far come across them, they seemed to have the impression that they will not make their appearance.

"Last year," he said, "as many as 2,000 eggs were found in a square foot of ground. This year owing to the cause I have mentioned, unless preventive measures are adopted, the number will be at least 5,000. One can easily see, therefore, that all crops in the Infested Areas are in jeopardy. It is only right that Farmers should know exactly where they stand and not lose One Moment in dealing with any outbreak."

Grasshopper Menace

Grasshoppers are beginning to hatch out in many places in the more Southern portions of the Province now, and it is emphasized the fact that this Menace is likely to be much more serious this year than ever before.

The statement has been made by those in authority that unless the utmost co-operation is exercised by every Farmer in the districts affected, in the movement to stamp out the Pest, the entire Crop of whole districts will be threatened with Destruction. There are not idle Statements made merely to alarm the Farmers, but are made after careful study of the situation and with the object of impressing upon Every individual Farmer the importance of keeping on the job in the campaign against the Pest. It is essential that every Farmer do his utmost. The Failure of one Farmer to take the proper steps to kill Hoppers on his place may undo all the Work of All the other Farmers and Organizations in this District. Rural Municipal Councils are bound to the seriousness of the situation and are actively preparing to do their part.

### Rained Grasshoppers Six Inches on the ground

COALDALE—Mr. Skelhorn made a deep impression on his audience here recently when he spoke on "The Habits of Grasshoppers." He pointed out that the Hoppers remain near their breeding grounds for several days after hatching and return to them at night. Hence, scatter the Bait in the Early Morning. Each flake of poisoned Bait will kill five Hoppers. After eating it they may remain alive for three days but their appetite has gone and they eventually die.

He told of South Dakota in the seventies when a big wind came from the west and it began to rain Grasshoppers. They became six inches thick on the ground. They choked the streams and polluted the wells. They ate up Every Green thing. Cattle perished and only Relief trains saved the people.

### The Farmers' Responsibility in Fighting the Grasshoppers

Mr. Strickland has made the following points clear of the new "Pest Act"

(1) Every Owner, or Occupier, of Grasshopper Infested lands is compelled to put out Poisoned Bait on that land

(2) The Provincial Government pays 90 per cent of the Expense of the Bait and the Local Improvement District 10 per cent

(3) Every Farmer must put out his own Bait and also see that his neighbor does. This campaign looks like a \$250,000.00 outlay, and we ought to make a thorough job of it

(4) The Owner of Infested vacant land is to be notified by an Officer of the Department of the condition of his land. Then, within three days, if no action is taken by the Owner, the Officer may go in and put out the Bait, and charge the Cost to the Owner

(5) In case anyone Refuses to put out Bait a fine of \$100.00 will be imposed

### Doctor Struck by a Baseball

FOREMOST, May 20.—Dr. M. Astorff is confined to his bed as a result of being struck on the head by a pitched ball during a practice game on the diamond last night. The ball which struck the doctor was very speedy and while no harm was apparent at the time, it became evident a couple of hours later that serious injury resulted, a very painful night being put in. He is reported as resting much easier now

### Bow Island News

Bow Island Baseball Team left for Taber on 24th. May to play a couple of games with Taber, the following being the Bow Island Team:

Ganison	Catcher
Davidson	Pitcher
L. Conners	1st Base
J. Enard	2nd Base
Mansfield	3rd Base
Burns	C. F.
R. Bateman	L. F.
C. Bateman	R. F.

The Taber Batteries were:  
1st. Game: Tufeland—Harris  
2nd. Game: Lewis, Pitcher  
Harris, Catcher

The Bow Island Batteries were:  
1st. Game: Davidson, Pitcher  
Ganison, Catcher  
2nd. Game: Enard, Pitcher  
L. Conners

The result of both games being in favour of Taber

A meeting of the Bow Island Baseball was held last Monday the 22nd and Mr. Swenmanson was appointed manager and Mr. D. Burnham was appointed assistant manager.

Dr. Cairns and Mr. L. Cullen were appointed to collect Membership fees which is \$1.00 this year

Bow Island opened the Rain Belt Baseball League on the 24th. of May and played two games. League game started at 2.30, and the Exhibition game started at 6.30, both were played at Taber

President Foster was asked to open the game by throwing the first ball

Mr. Thomas Conquerpool was a visitor to Town last Saturday, Mrs. Conquerpool and son returning home with him

Visitors to the Concert and Dance at Grassy Lake on Friday last were Mr. and Mrs. Blaine, Mr. and Mrs. Hurst; Mr. and Mrs. G. Allen; Mrs. C. Bell; Mr. R. Bateman and Mr. and Mrs. Bradner who played the Banjo and celled the Harp

The Concert and Dance was in aid of the Baseball Club

Miss M. Calder enjoyed the 24th. May at Medicine Hat

Miss Matson spent last Wednesday in Taber

We are very pleased to report that Mrs. J. Ancion's children, are all mending fine now, after their sickness of the past two weeks

Dr. Cairns and Mayor Reid motorred to Burdett last Friday evening

A very interesting book for Farmers is now entitled "Success In Prairie Tree Planting" is now issued by the Forestry Branch, Department of the Interior, Ottawa

This Bulletin No. 72 can be had free by writing for it

### Bow Island News

Mr. and Mrs. Swenmanson left for Calgary on Tuesday morning to spend a few days there and took in the 24th. May celebrations, Races etc. there they were expected home on the evening train yesterday Thursday

Congratulations to Mr. and Mrs. Laust on the arrival of a young daughter

Mr. Reg. Setters spent the 24th. May in Medicine Hat

Mr. W. Scott, builder of Calgary, is here renovating the quarters of the A.P.P. Detachment by building up a new kitchen and bedroom which was badly needed, by doing so it will give the A.P.P. residence an improved appearance also much more comfort

Mr. P. E. Duffy drove out to Maleb, yesterday Thursday to fetch Mrs. Duffy and children, who have been visiting Mrs. T. A. Reynar

Quite a number called on Mrs. Bell last Tuesday to see her mother Mrs. Shaw and had a very pleasant time

Congratulations to Mr. and Mrs. Edna Wilmut on the arrival of a young daughter

Casey's Minstrels are coming to Bow Island June 10th. If you wish to see the show buy your tickets early. Only a limited number will be sold

Mr. McLachlan of Grassy Lake was a visitor here on Friday last

The United Church was well filled on Monday evening, the Organists and the members of the L.O.H.A. attended to the church, the church was nicely decorated with flowers for the occasion. The Rev. Mr. Huckle certainly delivered a good sermon, those that were not there missed a treat

The Misses Jessie and Lucy Halloran spent the 24th. May in Medicine Hat

Mr. B. Whitney and his son Thompson, left for their home at Mapleberries on Thursday last, Mr. L. Hopkins is helping them, they expect to be a week on the trip.

Mrs. D. Bryant and Miss Louise the school-teacher of Sunnyside were in town, the guests of Mrs. Hurst

We are glad to have Mrs. James Shawer back in Bow Island again visiting her daughter Mrs. Bell, and glad to hear that she received the prize from the United Church in last year's contest for being the oldest mother there, Congratulations and the people wish that she may live to attend a number of Mothers' Days

Mrs. Gordon Evans moved into town last week and is living in Mrs. Theo Thompson's house

Mr. and Mrs. Dooley from Whitle were visitors to town last Saturday accompanied by Miss Smith, school teacher at Whitle, all taking in the U.F.A. Social and dance

Mr. A. Nanson and her two children left on the noon train last Wednesday to go north to Everett to join her husband who has been there since last fall, all her friends join in with the "Review" to wish them the very best of success in their new home

St. Michael's Church

Mass will be celebrated on Sunday May 28th. at 9 a.m.

## Women!

Look for this Trade Mark when You Buy Kitchen Utensils

Would you buy a can of salmon if it had no label? Or a bag of flour? No, certainly not! Then be just as careful when you are buying kitchen utensils. Purchase only those articles of Enamelled Ware carrying the **SMP** trade-mark. It is your safeguard and your guarantee of quality. Ask for

### SMP Diamond or Pearl Ware

Diamond Ware is a three-coated enameled steel, sky blue and white outside with a snowy white lining. Pearl Ware is a two-coated enameled steel, pearl grey and white inside and out.

### A Gratifying Change

There has in times past been so much bitterness in Canada's party politics, and such a pronounced tendency for the leaders of one political party to refuse to see anything good in the policies and actions of the opposing party, that it is not only gratifying but decidedly encouraging to note the change for the better which has taken place in recent years, and which is becoming more pronounced.

A pleasing manifestation of this was given a few days ago when, addressing one of our Western Canadian Clubs, Hon. H. H. Stevens, who was a minister in the Meighen Government, frankly stated that he believed the King Government was honestly desirous of helping the farmers of Canada in their present difficulties and was earnestly seeking a way whereby practical assistance could be rendered the agricultural industry.

Newspaper dispatches reporting the proceedings of the Parliamentary Committee investigating the problem of wheat marketing indicate that the members, in giving consideration to this large and vitally important subject, are not trying to make party capital for themselves, and to place their political opponents in a false light, but are sincerely striving to evolve a policy and devise ways and means which will be practical and provide for the removal of present disabilities imposed on agriculture, and give to the producer of grain a reasonable guarantee that he will receive the largest possible financial return from his labor.

Both from the purely Western and the larger national standpoint the attitude now being displayed towards agriculture is most encouraging, and holds promise that the same patriotic and business-like views will prevail when Parliament is called upon to deal with other great national questions. In the wise solution of which is bound up the welfare and prosperity of the people of this Dominion.

And why should this bigger, better, national viewpoint not prevail in our national Parliament? Considered in the mass, the Canadian people, while interested as all people living under a democratic form of government must be interested in the organization and conduct of political parties, are not rabidly partisan and more concerned in the fortunes of a political party than in the good government of the country and the wise administration of Canada's affairs.

There was a time when it seemed to be the accepted view that when one party announced its policy on a given question, whether that party be in office or in opposition, there was only one thing for the other party to do, and that was to oppose the policy announced regardless of its merits. Fortunately for Canada that time seems to have largely passed, and today political leaders are becoming more and more willing to acknowledge the good features of their opponent's policy and to show a readiness to co-operate in still further strengthening such policy and carrying it into successful operation. In these difficult and trying times through which the whole world is passing it is not partisan, non-partisan government that Canada requires, but patriotic, constructive co-operation by all members at Ottawa, regardless of the party with which they are aligned with the one common object of giving the Dominion wise, sane, business-like administration. Let there be suspicion, and criticism and the opposition when it is called for in the public interest, but the main guiding motive of Liberals, Conservatives, Progressives and Labor needs to be the advancement of Canada's highest welfare and the sound development of national policy with a view to the happiness of the Canadian people and the enhancement of the prosperity of the country at large.

We repeat, therefore, that present signs are both gratifying and encouraging, and especially to the men and women engaged in the business of Canadian industry, agriculture, which has been the chief support of the nation among Canadian industries from the old-time bitter partnership which opposed merely because the ideas and policies emanated from political opponents.

## Feed the body well

Right food for the body is more important than right fuel for the engine.

## Grape-Nuts

is a scientific food, containing all the nutriment of wheat and malted barley. Grape-Nuts digests easily and quickly, builds toward health and strength — and is delicious in flavor and crispness

"There's a Reason for Grape-Nuts"

### Good Argument for St. Lawrence Waterway

Statistics Show Immense Tonnage Moved on Great Lakes

Shipping statistics show that the total tonnage on the Great Lakes in 1916 was 125,000,000 tons. From Atlantic ports, 50,000,000; Pacific coast, 10,000,000; Gulf coast, about 15,000,000; and rivers and canals some 25,000,000 tons.

"This means that almost as much tonnage is moved on the Great Lakes in 1916 as over American waters, and more than on our three coasts," says the Great Lakes-St. Lawrence Tide-water Association.

"And this is done in spite of the crippled condition of the St. Lawrence. With a seaway via the St. Lawrence, the Middle West will develop more water-borne commerce than all the rest of the world."

"Opponents of the St. Lawrence seaway may say this is heavy load-class freight, but in saying so they admit the need of water transportation, for low-class freight cannot afford a long rail haul."

An Oil that is Priced Everywhere.—Dr. Thomson's Electric Oil was put up on the market without any flourish or fanfare. It is a simple oil, intended to meet the wants of a small section of the community, as it is marketed in a small, plain, unadorned bottle. It is known to have a whole content of a fluid, and it is now known and prized throughout this continent. There is nothing else like it.

R.C. Tree Seed for New Zealand.—Fifty pounds of Douglas fir cone seed and a same amount of Sitka spruce seed have been shipped from the Dominion forestry seed extracting plant at New Westminster, B.C., to the New Zealand Government, a similar shipment at the same time going forward to the Australian Government.

### HIS NERVES NOW STRONG AS EVER

How An Ontario Teacher Regained Good Health

"I am a school teacher, by profession," says Mr. James B. Thompson, R.R. 1, Cambridge, Ont. "When I started school teaching I was in very poor health. I suffered a nervous breakdown, brought on by overwork and no relaxation. I was unable to think, to act, or even to eat properly. Queer little prickles seemed to run continually up and down my back, my arms and my legs; like so many needles, seeming at times to fairly mangle me, and my heart was thumping like a trip-hammer. I was unable to do my family doctor, and he immediately gave up my school and returned home in order to recuperate my lost health. It was his chief remedy, and I drank quarts of it; yet, though it helped, it did not build me up to my normal condition—something was missing; something my system was craving for, better blood. One day, when I picked up a newspaper, I came across an advertisement of Dr. Williams' Pink Pills suggesting just what was needed in my case—richer, richer blood. I immediately sent for a box, and when the doctor visited me, I told him I had decided to try Dr. Williams' Pink Pills and he seemed pleased. By the time I had finished the box, I had gained weight, and I determined to get on with the time I had wasted. This was gradually coming back to normal. My strength was returning, my mind and will were working. For the next few weeks I continued to take the pills, and they were working wonders with me. My head was better, my nerves were becoming steadier, my sleep was better, my memory better. I began to go out frequently, enjoying my life, and my health improved and was even better than before I had my breakdown. I was my self again. I got back my school, and to this day I have had no return of the trouble, and now when anyone comes to me with nervous trouble, I instantly suggest Dr. Williams' Pink Pills as a remedy, as I believe that what they did in my case they will do for others."

Dr. Williams' Pink Pills can be obtained from any druggist, or by mail for 50 cents a box or six boxes for \$2.50 from Dr. Williams' Medicine Co., Brockville, Ont.

### Will Keep Canada's Money at Home

Treatment of Canadian Ore Will Establish New Industry

Realizing that Canada has been paying annually millions of dollars for steel products purchased in the United States and that steel plants in the interior of Canada have been dependent upon the United States for their supplies of iron ore, the Council for Scientific and Industrial Research at Ottawa has been investigating the native iron ore resources, and has secured reports from its committee. The effect that it is time to undertake the special treatment which the Canadian ores require, to fit them for economical reduction to pig iron, is hoped thereby to establish a new and important home industry.

Did you ever notice what a lot of friends you have got when you happen to need them?

### Conquering the North

Stefansson Says it is Only a Matter of Time

The phrase, "The Friendly Arctic," which is the title of Vilhjalmur Stefansson's new book, is in itself a challenge and a defence for the rigors of the north which most people of the world fear and dread. The celebrated Canadian explorer, in an article in "World's Work" presents the case for a cold climate, and says the world has frequently extended its habitable regions, and notably in the case of Canada itself.

"We are comparing the difficulties of the north faster as time goes on," he writes. "It was more than a thousand years from the time when the Romans thought that no civilization could exist north of the Alps until the civilization north of the Alps was really on a par with that of Italy. But it was only a century from the time when Benjamin Franklin thought that the little island of Goddough was the limit of civilization in Canada had become more important than the whole island of Greenland."

By analogy we may expect that it will require only a decade or two for the same progress in knowledge and revolution in sentiment with regard to the northern prairies that are still called "barren grounds" and are still supposed to be worthless."

Acting surgeon and estate manager, chiropody, and dental surgery are three professions in which good prospects are said to exist for women.

A Real Asthma Relief. Dr. J. D. Kellogg's Asthma Remedy has never been advertised by extravagant statements. Its claims are conservative, when judged by the benefits which it performs. Expected relief and permanent benefits when you try this remedy and you will not have cause for disappointment. It gives permanent relief in many cases where other so-called remedies have utterly failed.

Many temples in China are provided with a bell at the entrance and when a worshiper enters he gives the rope a pull to ring the bell in order that the gods may be notified of his coming and be at hand to aid in his prayers.

An Oil for All Men.—The sailor, the miner, the farmer, the workman, the out-door laborer and all who are exposed to injury and the elements will find in Dr. Thomson's Electric Oil a true and faithful friend. To ease pain, relieve colds, dress wounds, subdue lumbago and overcome rheumatism, it is excellent. Therefore, it should have a place in all home medicine and be amongst those taken on a journey.

London, British, England, cost 51¢, 60¢, 100¢, is 99¢ per foot long and 15¢ wide, with 100,000 persons passing over it every 24 hours.

## CORNS

Lift Off with Fingers

Miller's Worm Powders can do no injury to the most delicate child. Any child, or infant in the state of convulsion, who is most distressed with worms, who has this preparation without a grain of the stomach, and will find it a sure relief and a full protection from these destructive pests, which are responsible for much sickness and great suffering to legions of little ones.

London has the best trade regulations and Paris the worst, according to an American investigator.

Minard's Liniment used by Physicians

### Moisture Conditions Best in Years

Moisture conditions over the prairie provinces are perhaps the best for ten years, according to the preliminary report of the Grain Trade News. The report further states that the supply of labor, as regards numbers, can be said to be quite satisfactory, with wages running from as low as \$25 up to \$45 a month for good men.

### WEAK HEART

NERVES BADLY SHATTERED

Many a woman who should be strong and healthy, full of life and energy is bound by the shackles of ill-health.

Some disease or constitutional disorder has left its mark in the form of a weak heart, shattered nerves, inability to sleep and an exhausted condition of the whole system.

It is MILBURN'S HEART AND NERVE PILLS

they will find a remedy that will supply food for the exhausted nerves, one that will strengthen and regulate the weak heart and invigorate the whole system.

Mrs. W. W. Pearce, 14 Seaton St., Toronto, Ont., writes:—"I was left with a weak heart and in a run down condition from the flu. My nerves were badly shattered, and I had such pains around my heart I could not sleep much at night. I took several doctors' medicines without getting any better. My husband got me to try Milburn's Heart and Nerve Pills, and after I took one box I got relief, and after taking six boxes I have been well and not bothered since."

Price, five a box at all dealers, or mailed direct on receipt of price by Milburn Co., Limited, Toronto, Ont.

### Canadian National Excursions

Plan Your Summer Trip Via the National Route

The Canadian National Railways announce their summer excursion routes to the Pacific Coast and to Eastern Canada. The Pacific Coast trip through the Canadian Rockies, includes choice of route on land and sea, going or returning. A magnificent 150 mile voyage between Prince Rupert, Vancouver, Victoria and Seattle may be taken. The trip to Eastern Canada includes all rail and lake and rail, with choice of routes. See Toronto, Quebec, the Thousand Islands, and the magnificent Niagara Falls. Sail down the St. Lawrence.

The Canadian National trains cross the Rockies at the lowest altitude, the easiest gradients, and in view of Canada's highest peaks. Break your journey and stay at Jasper Park Lodge, Lac Beauport, Jasper, Alta.

The lodge is open from June 15th to Sept. 15th. It is modern in every respect, has a dancing pavilion, and commands a wonderful view of the prominent mountain peaks.

On your trip to the East, have your party plan include a few days at "Minaki" Inn, 115 miles east of Winnipeg. Decide now to take a holiday.

Be sure to take a family. Get information and full information as to fares, reservations, train service, etc., from any Canadian National Agent. Ask for free tourist booklets.

A composite flag, representing the national colors of the United States, Great Britain, France, Belgium, Italy and Japan has been placed upon the grave of the British unknown warrior in Westminster Abbey.

Miller's Worm Powders can do no injury to the most delicate child. Any child, or infant in the state of convulsion, who is most distressed with worms, who has this preparation without a grain of the stomach, and will find it a sure relief and a full protection from these destructive pests, which are responsible for much sickness and great suffering to legions of little ones.

London has the best trade regulations and Paris the worst, according to an American investigator.

AMERICAN COMMANDER HONORS CANADA'S DEAD

ON the occasion of his recent visit to Montreal to receive a degree from McGill University, General John J. Pershing, Commander-in-Chief of the United States Army, paid grateful tribute to Canada's soldiers who gave their lives in the Great War. At the end of the day, as he went to his private car in the Windsor Street C.P.R. Station, General Pershing took occasion to pay a visit to the bronze group erected to the memory of eleven hundred C.P.R. employees who died in the service of King and country. At a Canadian Club luncheon during the afternoon, General Pershing had said: "I think no army that served in the world was suffered more than the Canadians; none were more gallant."

Some came home with greater laurels than those American representatives from north of the 49th parallel. I do not wish to draw any comparisons, but out of those 450,000 Canadians who went overseas to fight for liberty and justice about half were casualties. No army has a better record than that, and it is something of which Canadians and Americans are justly proud—for we are all Americans in a broad sense. The General approached the statue he stood to attention and saluted, and later on, with the greatest of good nature, agreed to pose in front of it for the benefit of the press photographers. General Pershing is accompanied by Colonel J. T. Lorne (right), and Major Marshall, his aide-de-camp.

## Burdett News

From Our Own Correspondent

Mr. J. M. Shaver of Calgary is spending a couple of weeks with his brother on the farm.

Mr. and Mrs. (Peanut) Adams and family are the guests of Mrs. Adam's parents, Mr. and Mrs. R. B. Clark.

### Card of Thanks

The undersigned wish to express their sincere thanks to their many kind friends for their love and expressions of sympathy during their recent sad bereavement.  
(Signed) Mr. and Mrs. G.A. Pool  
— R. D. Pool

Burdett makes one think of the poet Goldsmith's Poem, "The Deserted Village"—these days: "The farmers are so busy they do not come to town unless it is absolutely necessary—this week will see the most of the seedling finished, then we will be pleased once more to see their smiling faces."

### Announcement

The Sun Fire Office of London, Eng. wish to announce for the benefit of their many clients in Burdett, that Mr. G.H. Johnston has been appointed their duly authorized agent, in place of Mr. F.J. Hamilton.

Mr. Raymond Pool of Stirling spent the week end with his father and mother Mr. and Mrs. G. A. Pool.

Mrs. Adams Sr. has accepted the position of house keeper for Mr. G.W. Robinson, she is accompanied by her little daughter.

Primary Saturday 2 p.m.

Choir Practice Thursday 8 p.m.

## GRASSY LAKE

We are glad to report that Mrs. Chas Scott is feeling a little better and that she is able to be up and around again.

Last Friday evening a concert and dance was held in aid of the Baseball Club. Visitors coming from the surrounding districts and altogether the whole evening was a delightful success.

Mr. McLachlan of Grassy Lake was a visitor to Bow Island last Friday.

## Re Grasshopper Control

No effort is being spared by the Municipal District of Eureka No. 65, with headquarters at Grassy Lake, Alberta, to combat the Grasshopper Menace. A representative of the Department of Agriculture for the Province of Alberta was present at the regular meeting of the Council and went thoroughly into the matter of Grasshopper Control and "Pests Act" as adopted by the last session of the Alberta Legislature.

The Council fully realizing the seriousness to the whole country of the Menace by the Grasshopper, decided to put on a Vigorous Campaign for the purpose of Advising the Farmers of the situation and the giving of information relative to the habits of, and the Method of Control and Extirmination of this Pest. Public meetings for the discussion of the subject were called at Pettig School house for the evening of the 11th May; Sherburne School house on the 12th May; Purple Springs School house on the 13th May; Kinsburgh School house on the 14th May; Redstone School house on the 15th May; Marchessault School house on the 16th May; G.W.V.A. Hall Grassy Lake on the 20th May and at Golden Prairie School house on Tuesday evening the 22nd May.

Mr. Skelhorn of the department of Agriculture was able to attend the meeting at the Pettig Schoolhouse and gave a lecture in detail on the subject to a large and very interested gathering of Farmers of the district.

Mr. Strickland, Professor of Entomology of the University of Alberta together with Mr. Gray of the Dominion Experimental Farm at Lethbridge attended the Meetings held at Redstone and Marchessault Schoolhouses and at Grassy Lake, and at Golden Prairie School house and gave first hand information to large and interested audiences, who asked numerous and intelligent questions relative to the Control and Extirmination of the Pests, eliciting some very valuable information.

The District is having put in operation, two Mixing Machines for preparing the Bait ready mixed, to all Farmers in the district and the Bait will be furnished free to any farmer who finds his lands infested with Hoppers. These Mixing Stations will be located at Grassy Lake and Purple Springs and men will be in charge of the plants to mix and supply Bait to Applicants at any time of the day or night. So that no delay should occur to any one, once Hoppers are found to infest any lands. The Wild Lands of the District will be Patrolled as consistently as possible and the

resident farmers of the whole district are asked to Co-operate with the Official of the District in this respect and forward any information to the Office of the Secretary-Treasurer at Grassy Lake should any outbreak of Hoppers be discovered on Unenclosed lands, arrangement for having the Poisoned Bait applied to any such lands will be immediate Attention.

It is pointed out that Economy in the Application of the Bait must be practised for the reasons that the supply obtainable is rather limited and the area likely to be infested with Hoppers this year is becoming larger as Egg deposits of the Hoppers are being found from the Southern boundary of the Province to as far North as the Camrose District, this District has been very fortunate in obtaining three car loads of the ingredients, and Farmers are asked to Not draw any more of the Bait from the Mixing Station than is required for immediate Use and to use the Bait only on lands which are known to be Infested with Hoppers, the Bait retaining its usefulness for only about Four Days after being mixed and must during that time be kept where the Moisture will Not Evaporate nor the mixture allowed to become mouldy.

Twenty-five pounds of the Mixture is sufficient to Poison about an Acre of land, the Mixture being spread very Thinly and Each Flake of the bean and seed should fall to the ground separately, as each flake will kill from five to ten of the young Hoppers, which commence Feeding when about 48 Hours old.

The young Hoppers leave their hatching places only a very short distance for the First Week to Ten days and are most readily Killed during this time if the Bait is applied to these Hatching places.

The Bait should be applied in the Early Morning and when the Sun is
